SUBJECT INDEX

Abnormalities/Anomalies, ambiguous genitalia, gender assignment, criteria, 232
  congenital penile curvature, chordee without hypospadias, 708
  iliac artery, tortuous/redundant, 450
  infected urachal cysts/sinuses, children/adults, 426
Adjuvant therapy, post-prostatectomy, irradiation, 292
  post-prostatectomy, radiation alone or plus orchiectomy, effect on outcome, 282
Adrenal cortical hyperplasia, congenital female pseudohermaphroditism, 232
Adrenal hemangioma, cavernous, clinical/radiographic/pathologic features, 60-year-old woman, 327
Adrenal metastases, from lung carcinoma, successful surgery of both lesions, 716
AIDS, primary urethral B-cell lymphoma, 596
  toxoplasma cystitis, antemortem diagnosis, therapy, 589
Alpha blockade, androgen/estrogen suppression, BPH therapy, 483
Alpha-1-antichymotrypsin production in prostate epithelium cells, PSA-ACT interaction, immunocytochemistry, 502
Ambiguous genitalia, comprehensive review: identity/orientation/gender assignment, 232
Aortic occlusion, complete abdominal, extra-anatomic renal revascularization, safe/successful, 630
Artificial sphincter AS800, pediatric/adult urinary incontinence, 431
AUA Symptom Index, benign prostatic hyperplasia, 36, 483

Bacillus Calmette-Guérin (BCG) therapy, intravesical, post-treatment risks, 26, 89
  intravesical, post-treatment risks, asymptomatic upper urinary tract tumors, 26
    bladder wall calcification, 89
Benign prostatic hyperplasia (BPH), AUA Symptom Index, 36, 483
  balloon dilatation vs TURP, 51-patient randomized clinical trial, peak urinary flow, 42
  medical therapy, comprehensive review, 102 refs., 483
    terazosin (alpha blocker), finasteride (alpha-reductase inhibitor), 483
    vs TURP, rationale, 483
  neuroendocrine cells role in the pathogenesis of BPH, 512
Biopsy, transrectal, ultrasound-guided vs digitally directed, 677
Biopsy gun, automatic spring-loaded, ultrasound-controlled, renal transplant, 580
  spring-loaded needle, testicular biopsy, technique, 325
Bladder, augmentation cystoplasty, urinary diversion, ileal conduit patch, 190
  extraordinary urinary frequency syndrome (EUFS), cystitis/urethritis/hypercalcinuria, 321
  interstitial cystitis, etiology, effect of human cystitis urine on rabbit bladder, 646
  non-neurogenic neurogenic, Hinman Syndrome, cyclical features, 317
    laparoscopic seromyotomy, pediatric incontinence, 175
Bladder cancer, BCG therapy risks, bladder calcification, 89
  BCG-treated, recurrent asymptomatic upper urinary tract stones, 26
  papillary transitional cell, resection using endoscopic snare, 440
  TCC, pediatric/adolescent, hematuria, 447
  urachal carcinoma, conservation vs radical surgery, umbilectomy/partial cystectomy, 635
Bladder neck preservation, continence preservation, urethral stricture prevention, 689
  radical retropubic prostatectomy, 50 patients, 689
Bladder outlet obstruction, balloon dilatation vs TURP, 42
  Urolase laser prostatectomy, warfarin-treated patients, 738
Buschke-Lowenstein tumor, penile squamous cell, rare, systemic chemotherapy, 599

Calculus(i), hyperuriacidemia, ileal ureter, Uraryl-U, Allopurinol, 86
  lower ureteral, ureteroscopy vs ESWL, 356
  renal, caliceal diverticula, percutaneous management, 21
  renal ectopia, urosepsis, nephrostolithotomy, 82
  sonograph-demonstrated within urethral diverticulum, 735
  ureteral, ESWL/percutaneous nephrosolithotomy/ureteroscopy vs open surgery, 353
Caliceal diverticula, percutaneous vs ESWL management, 20 patients, 19 with stones, 21
Catheter(s), Foley catheter adaptation for hemostasis, urologic laparoscopy, 583
  indwelling, upper tract complications, spinal cord injury, 259
  kidney internal splint/stent (KISS), postpyeloplasty urinary diversion, 55
  ultrasound-guided, ureteral obstruction in pregnancy, 263
"Catheterless" postoperative management of ureteral reimplantation, pediatric, 705
Cavernous nerve damage, neurogenic impotence, NOS diagnosis, 412
Cisplatin-based combination multidrug chemotherapy, penile cancer, 12-year experience, 559
Cryosurgery, renal, ultrasound monitoring, hyperechoic cryolesions, dogs, 212
Cryptorchid testes, successful reoperation, failed orchiopexy, technique, 437
Cryptorchidism, intra-abdominal testes, laparoscopy, 182
Cystitis, vesical toxoplasmosis, AIDS, bladder biopsy, 589
Cystoplasty, augmentation, fatal perforation, 29-year-old paraplegic, complications, 585
Cysts, polycystic kidney, etiology/treatment, RCC risk, review, 358

Detrusor instability, cause of primary enuresis, 50 children (Letter, Reply), 225
Diverticula, caliceal, percutaneous management, calculi, 21

Editor's Letter: RE: peer-review process, article categories, journal sections, 1
Enuresis, bladder instability, anticholinergic vs Vasopressin spray (Letter, Reply), 225
Erectile dysfunction, Mentor Alpha 1 inflatable penile prosthesis, 335 cases, 305
  organic, corpus cavernosum contraction-relaxation relationship, rabbit/human tissue study, 698
  pathophysiology, comprehensive etiologic review, 182 refs., 468
  ? role of (NO) metabolites, smooth muscle corpora cavernosa, 551
  venous leakage, NO-donor SIN-1 vs PGE-1, cavernous muscle relaxation, 409
Erectile response to PDUS-monitored ICI plus AVSS, vasculogenic impotence, 695
ESWL, distal ureteral stones (Editorial), 353
  distal ureteral stones, stone-free results, ? safety in childbearing age, 353
  vs ureteroscopy, lower ureteral stones, criteria for choice, 356

EUFS, extraordinary urinary frequency syndrome, pediatric, etiology/characteristics/treatment, 321

Fetal hydronephrosis, obstruction vs obstructed dilatation, prenatal diagnosis, postnatal treatment, 229

Gender reassignment surgery, urinary incontinence, periurethral collagen injection, 458
Gene therapy, nuclear morphometry, renal cell carcinoma, recurrence risk, 243
Genitourinary cancer, bladder/prostate, HSP-27 noneffective as predictive tumor marker, 379
Genitourinary trauma, blunt, pediatric, CT scan, cystourethrography, hematuria, review, 563
Germ cell tumor, contralateral theca cell, synchronous bilateral testicular cancer, rare, 593
  redo retroperitoneal lymph node dissection (RPLND), recurrent masses, 31
Gonadal stroma cell tumor, metastatic, 3-month remission after 4-course combination chemotherapy, 16-year-old man, 732
Goserelin acetate plus flutamide, antiandrogen therapy vs bilateral orchiectomy, prostate cancer, 119

Heat shock protein-27 (HSP-27), ? prognostic/diagnostic predictor, bladder/prostate cancer, 379
Hemangioma, cavernous adrenal, clinical/radiographic/pathologic features, 327
  penis/scrotum, surgical excision vs laser, 5-month-old child, 205
Hematuria, predictor of severe renal trauma, pediatric, 418, 563
Hemodialysis, renal failure, pre-, and post-dialysis PSA levels, 398
Hermaphroditism: male pseudo-, female pseudo-, true; gender assignment, 232
Hinman Syndrome, cyclical features: voiding dysfunction/UTI/psychosocial problems, 317
HPV-related penile squamous cell carcinoma, etiologic factors, follow-up, 159
Hydrocele, inguinal hernia sac intussusception processus vaginalis, 2 boys, 76
Hydrocephalus, ventriculoureteral shunt, cerebral spinal fluid drainage, long-term follow-up, 193
Hydronephrosis, fetal, neonatal (Editorials), 229, 617, 620
    asymptomatic, fetal ultrasound, earlier vs postponed pyeloplasty, 617, 620
    prenatal diagnosis, obstruction vs obstructed dilatation, postnatal treatment, 229
    2nd-day ultrasound, diagnostic criteria for postnatal surgery, 617, 620
    ultrasound-diagnosed, *if* or *when* surgical dilemma? 617, 620
  prenatal, nonobstructive dilatation converted to obstruction, postnatal follow-up, 569
  resolved by incision of labial fusion, infant, 209
Hypospadias repair, pedicled prepubital patch, 63

Impotence, cavernous nerve dissection, erectile function preservation, penile surgery, neuroanatomy, 145
  erectile dysfunction, comprehensive review, 182 refs., 468
    corporeal smooth muscle contraction-relaxation relationship, 698
    prostaglandin E-2, cream vs injection, 73
  Mentor Alpha 1 inflatable penile prosthesis, 305
  neurogenic, cavernous nerve damage, NOS diagnosis, 412
  Peyronie's disease, modified approach, dorsal-view graft, 300
Impotence,
  terbulaline/pseudoephedrine-induced detumescence, prolonged erection, 51
  vasculogenic, intracavernous injection of vasoactive drugs, 554
    PDUS-monitored erectile response to multidose intracorporeal injection plus audiovisual sexual stimulation, 695

Incontinence, see Urinary incontinence
Infertility, endocrinologic changes in obese infertile males, 171
  varicocele, adolescent, role in later life infertility, 541
Injury, rectal iatrogenic, pelvic surgery, peritonitis risk, new repair technique, 713
  upper ureter, severe traumatic bullet wound, delayed renal autotransplantaion, ureteropyeloplasty, 725
Instruments: Biopty Gun, 325, 580; endoscopic snare, 440; hook-blade knife, 443; KISS catheter, 55; SCD devices, 406; ureteral illuminator, 455
Interleukin immunotherapy preceded by cytoreductive surgery, metastatic carcinoma, 250

Kidney, ARPKD, bilateral nephrectomy, dialysis, survival, 309
  non-Hodgkins lymphoma (NHL), primary small noncleaved cell, 331
  renal cell epithelial tumor, pediatric, polycythemia, 93

Labial fusion, hydronephrosis, urinary tract obstruction, infant, 209
Laparoscopic surgery, gonadectomy, testicular feminization, amenorrhea, 201
  impalpable abdominal testes, diagnosis/management, 574
  identification of ureter, ureteral illuminator, technique, 455
  intra-abdominal testes, cryptorchidism, technique, 182
  intra, postoperative complications: vascular/GI/urinary tract injuries, technique/experience, 2
  nephrectomy vs open surgery, renal ectopia, minimally invasive, 375
    radical, renal malignancy, 8 patients, no recurrence, 603
  pelvic lymphadenectomy, ? iatrogenic obturator nerve injury, 198
  pelvic lymphadenectomy *prior to* radical prostatectomy, criteria, 680
  retroperitoneal lymph node dissection, Stage A testis cancer, advantages, 610
  urologic, Foley catheter hemostasis, technique, 583
  Varess needle puncture, 574
  Varess needle/trocar placement, patient selection, surgeon's skills, 2
  varicocelectomy vs open surgery, effective technique, success rate, 544
Laser prostatectomy, 66
  Nd:YAG, bladder outlet obstruction, patients on anticoagulant therapy, 738
Leydig cell tumor, intra-abdominal testis, cryptorchidism/gynecomastia, US diagnosis, 729
LHRH agonist (goserelin) plus antiandrogen (flutamide) vs bilateral orchiectomy, prostate cancer, 119
LHRH agonist therapy, prostate cancer, patient compliance, ? testosterone elevation, 533
Lung carcinoma with solitary adrenal metastasis, successful resection of both lesions, long-term survival, 716
Lymphadenectomy, pelvic laparoscopic, obturator nerve injury, 198

Lymphoma, non-Hodgkin's, mimicking renal adenocarcinoma, vena cava involvement, 720
primary urethral female, irradiation, long-term recurrence-free, 343

Mainz pouch reservoir, canine studies, solution osmolality, oxybutynin effect, nocturnal incontinence, 741
Medical treatment of BPH: alpha blockade/androgen suppression/estrogen suppression, caveats, clinical studies, 483
Munchausen syndrome, 3 cases, "hospital addiction," presenting renal colic, hematuria, nephrolithiasis, psychiatric follow-up, 347

National Medicare Experience, survey of 1,070 patients age 65 yrs +, radical prostatectomy follow-up, 622
Nephrectomy, radical, laparoscopic, renal neoplasms, 35-month follow-up, no recurrence, 603
Nitric oxide (NO), direct donor linsidomine chlorhydrate (SIN-1), effect on venous leakage causing erectile dysfunction, 409
metabolite levels during penile erection, cavernosal smooth muscle relaxation, 551
Nitric oxide synthase (NOS), diagnosis neurogenic impotence, 412
Nuclear morphometry, renal cell carcinoma, gene therapy risks, 243

Obesity and fertility status, effect on sex steroid levels, infertile males, 171
Obstruction, nonobstructive dilatation, neonatal, upper urinary tract, 569
Obturator nerve injury, iatrogenic, during laparoscopic lymphadenectomy, 198
Orchiectomy, laparoscopic, technique, intra-abdominal testes, 182

Pancreatitis, acute, due to ruptured renal cell carcinoma, clinical/biochemical diagnosis, 445
Papillary transitional cell carcinoma, bladder, resection using endoscopic snare, 440
Pelvic lymph node metastasis, positive predictive criteria, laparoscopic lymphadenectomy *prior to* prostatectomy, 680
Penile cancer, Buschke-Lowenstein tumor, systemic chemotherapy: bleomycin/cisplatin/methotrexate/leucovorin, 599
multidrug combination chemotherapy, cisplatin-based, 559
Penile chordee, hypospadias repair, pedicled prepubital patch, 63
Penile curvature, dorsal view graft, Peyronie's disease, 300
pediatric, TAP, island flap urethroplasty, 708
Penis, cavernous dissection, erectile function preservation, neuroanatomy, 145
congenital curvature, chordee without hypospdias, dorsal tunica albuginea plications (TAP), technique, 708
erectile dysfunction, Mentor Alpha I inflatable prosthesis, 305
NO-donor SIN-1 vs PGE-1, effect on venous leakage, 409
prolonged erection, prostaglandin induced, impotence, 51
squamous cell carcinoma, HPV related, laser therapy, review, 159
Percutaneous nephrostolithotomy (PCNL), ectopic renal calculi, 82
Perforation of augmentation cystoplasty, spontaneous, fatal, 29-year-old male paraplegic, 585
Peritoneoscopy, *see* Laparoscopy
Personality variables in prostatitis vs vasectomy patients, antidepressants, 654
Peyronie's disease, endothelial derived releasing factor (NO) in postoperative clot formation, 300
Polycystic kidney disease, autosomal dominant, RCC risk, 358
autostomal recessive, neonatal bilateral nephrectomy/peritoneal dialysis, survival, 309
Priapism, iatrogenic, detumescence via oral terbutaline/pseudoephedrine, 51
Prostaglandin E-2, suppository vs injection, 73
Prostate, giant prostatic hyperplasia (GPH), 526-g prostate adenoma, retropubic prostatectomy, 336
iliac artery precluding retropubic prostatectomy, CT scan assessment, 450
palpably abnormal, ultrasound-guided vs digitally directed transrectal biopsy, diagnosis, 677
visual laser ablation (VLAP), urinary retention, BPH, 66
Prostate adenocarcinoma, adjuvant irradiation after radical prostatectomy, postoperative PSA, 292
Stage D, tumor marker fluctuation analysis, predictive value, 672
Prostate/Bladder cancer, HSP-27 noneffective as predictive tumor marker, 379
Prostate cancer, demographics, screening procedure differences, significance, 269
early detection, effect of age on PSA/DRE, multicenter study, 365
Japanese 20-year experience, long-term conservative management, phenotype/racial/genetic differences, 520
LHRH agonist therapy, importance of patient compliance, 533
maximal androgen blockage (MAB) vs bilateral orchiectomy, EORTC trial, 327 patients, 119
negative DRE/elevated PSA/biopsy positive, diagnostic relevance, 150
negative repeat TURP not indicative of low risk of progression, 528
PSA changes, doubling time estimation, prognosis, 383
radical retropubic prostatectomy, rectal injuries, risk factors, 401
role of polypeptide growth factors, review, 109 refs., 99
screening: annual PSA/rectal exam, detection early stage cancer, survival, 113
procedure analyses, 1700 subjects, demographics, significance, 269
variability of PSA as function of time, 390
staging accuracy, transrectal ultrasonography (TRUS) plus grade-stratified PSA (PSA-GS), predictive value, 131
TRUS-guided biopsy/DRE/PSA, diagnostic criteria, 150
? value of screening in asymptomatic men, impact on mortality rate, 116
Prostate carcinoma, local, postradiation PSA, progression-free survival, 13
primary signet-ring cell, mucin-secreting, immunohistochemical findings, rare, 338
prostate fluid enzymes vs tissue enzyme assay, diagnostic accuracy, 138
Prostate epithelium, neuroendocrine cells' role in the pathogenesis of BPH, serotonin, 512
Prostate fluid enzymes: arginase, hexosaminidase, leucine aminopeptidase: enzyme analysis, 138
Prostatectomy, Nd:YAG laser option, warfarin-treated patients, 738

Prostatectomy,
pathologic Stage C cancer, effect of adjuvant therapy on disease outcome, 283
radical, bladder neck preservation, tumor marker correlation with positive bladder neck margin, 689
Medicare-patient survey (age 65 yrs. +), wetness/sexual dysfunction/urethral stricture, complications/follow-up, 622
Stage C, 1,035-patient analysis, effect of adjuvant treatment, 283
radical retropubic, rectal/thromboembolic complications, risk factors, 401, 406
521-g adenoma, giant prostatic hyperplasia (GPH), 336
visual laser ablation (VLAP), urinary retention, BPH, 66
Prostatism, urinary symptoms' frequency-bother discordance, psychosocial factors, ? greater health-care-seeking behavior, 663
Prostatitis, chronic, patient personality variables, quantitative study, 654
PSA (prostate-specific antigen), analysis of variability as function of time, ? value as tumor marker, 129 males, 390
cystoscopy/prostate biopsy/TURP, effect on PSA concentration, 276
effect of hemodialysis on PSA levels (not eliminated), renal failure, 398
estimation of prostate cancer growth rate, prognosis prediction, antigen doubling time, 383
local prostate carcinoma, post radiation (XRT) survival monitoring, 13
levels after cystoscopy/prostate biopsy/TURP, significance of variables, 276
plus rectal exam in annual screening, prostate cancer, 113
prostate epithelium-cell production of alpha-1-antichymotrypsin (ACT), PSA-ACT interaction, 502
PSA-containing epithelium cell production of alpha-1-antichymotrypsin, ? significance, immunocytochemistry animal studies, 502
time lapse before PSA levels return to stable value after biopsy/cystoscopy/TURP, 276
XRT, post radiation levels, predictors of progression-free survival, 13
PSA and ACT interactions in prostate epithelium, immunocytochemistry studies, 502
PSA and DRE, effect of age in early detection, multicenter study, 365
Prosthesis, inflatable penile Mentor Alpha 1, 335 consecutive cases, 305
implant, silicone gel-filled, 5-year, 35-patient retrospective study, 155
Psychosocial factors, urinary frequency-bother discordance, health-care-seeking behavior, BPH, 663
Psychotherapy for Munchausen's syndrome, 3 urologic cases, 347
Pyeloplasty, nephrostomy, KISS catheter, 55

Rectal injury, iatrogenic, pelvic surgery, endopelvic fascia flap repair, 713
Renal adenocarcinoma, vena cava involvement, non-Hodgkin's lymphoma, CT diagnosis, 720
Renal artery stenosis, extra-anatomic renal revascularization, avoiding aorta surgery, 630
Renal cell carcinoma, metastatic, effect of cytoreductive surgical pretreatment on interleukin immunotherapy, 250
metastatic, interleukin immunotherapy (IL-2) preceded by cytoreductive nephrectomy, 250
Renal cell carcinoma,
nuclear morphometry, recurrence risk, gene therapy, 243
pediatric, histologic diagnostic significance, 93
spontaneous rupture resulting in acute pancreatitis, first documented case, 445
Renal cryosurgery, ultrasound monitoring, dogs, 212
Renal ectopia, crossed fused, laparoscopic vs open nephrectomy, 375
Renal lymphoma, primary small noncleaved cell, extrarenal disease, 331
Renal polycystic disease, clinical signs: flank pain/hematuria/stones/infection/hypertension/neoplasms, review, 358
Renal revascularization, extra-anatomic: hepato-, mesentero-, or splenorenal bypass, 630
Renal transplant biopsy, ultrasonic-controlled automatic spring-loaded biopsy gun, 580
Renal trauma, pediatric, hematuria, CT evaluation, nonsurgical management, review, 418
Retroperitoneal lymph nodes, re-dissection, recurrent germ cell tumors, 31

Screening for prostate cancer (Editorials), 113, 116, 269
Screening, prostate cancer, pros/cons, risks/benefits, 116, 269
urinary incontinence, elderly, simple/multichannel cystometry, diagnostic accuracy, 536
Scrotum, inguinal hernia sac intussusception, acute hydrocele, processus vaginalis obstruction, 76
testis tumor presenting with testicular torsion, 453
Seromyomotomy, laparoscopic, pediatric urinary incontinence, 175
Signet-ring cell carcinoma, primary prostatic, mucin-secreting, immunohistochemical diagnosis, 338
Spinal cord injury, TRUSU vs VUD evaluation neurogenic bladder, 640

Terazosin and finasteride, new drugs approved for BPH therapy, 483
Testis(es), biopsy gun needle, technique, 325
cancer, nonseminomatous, Stage A, laparoscopic vs open surgery, retroperitoneal lymph node dissection, 610
impalpable abdominal, laparoscopic management, Veress needle complication, 574
intra-abdominal, Leydig cell tumor, cryptorchidism/gynecomastia, US diagnosis, 729
redo retroperitoneal lymphadenectomy, recurrent tumor masses (GCT), 31
reoperation for cryptorchid testis (failed orchiopexy), prepuberty, technique, 437
silicone gel-filled prosthesis, retrospective 5-year safety study, 155
stromal cell tumor, metastatic, response to 4-course combination chemotherapy (etoposide/cisplatin/ifosfamide/bleomycin), 3-month remission, 732
tumor, adult testicular torsion, rare, 53-year-old man, 453
synchronous bilateral: mixed germ cell/theca cell, rare, differential pathologic diagnosis, 593
yolk sac, alpha feta-protein levels as tumor markers, infants, 79
Testicular dysfunction, GnHR test, fertility, varicocele, adolescents, 179
Testicular feminization, laparoscopic gonadectomy, pseudohermaphroditism, 201
Testicular torsion masking testis tumor, adult, diagnostic criteria, 453
Thromboembolic complications, 1500 men, retropubic prostatectomy, SCD devices on discharges, 406

Transrectal ultrasound (TRUS), Gleason score, PSA, predictive values, prostate cancer, 131
vs VUD urodynamics, evaluation of neurogenic bladder, spinal cord injury, 640
Transitional cell carcinoma, asymptomatic upper urinary tract, following BCG-treated bladder cancer, 26
bladder, 10-year-old boy, review, 447
Trauma, pediatric, genitourinary, gross hematuria, cystourethrogram/CT scan, 563
pediatric, renal, hematuria, nonsurgical management, 1,175-patient Trauma Registry analysis, 418
urethral stricture, individualized surgery, 59
Tumor markers, alpha-feta protein, yolk sac tumor, 79
fluctuation analysis; AP/PSA-Y/PSA-H/LASA-P/TPA, predictive value, prostate cancer Stage D, 672
HSP-27, ? genitourinary cancer, 379
PSA, analysis of variability as function of time, prostate cancer screening, 390
Tumor suppressor genes: RB-/WT-/p53-/APC/DCC/NF-1, clinical/experimental delineation, 461
TURP, Stage A1 prostate carcinoma, negative repeat TURP not indicative of low risk of tumor progression, 528

Ultrasound-guided stent placement, complications of pregnancy, 263
Upper urinary tract obstruction, nonobstructive dilatation, 569
Urachal anomalies: infected cysts (children)/infected sinuses (adults), embryologic etiology, 426
Urachal carcinoma, rationale for conservative surgery, umbilectomy/partial cystectomy, 38-patient review, 635
Ureter, ileal replacement wall, Uraryl-U, 86
laparoscopic identification, ureteral illuminator (fiberoptic light strands), 455
reimplanted, distal stones, percutaneous transvesical ureteroscopy, pediatric, 313
segment loss due to bullet wound, delayed renal autotransplantation, ureteropyeloplasty, rationale, 725
Ureteral obstruction, acute, pregnancy, ultrasound-guided stent placement, 263
Ureteral reimplantation, pediatric, postoperative "catheterless" technique, advantages, 705
Ureteral stones, distal, ESWL management, stone-free results, stone manipulation, review, 353
Ureteroscopy, lower ureteral stones, (Editorial), 356
vs ESWL, lower ureteral stones, criteria for choice, 356
percutaneous transvesical, stone in distal reimplanted ureter, pediatric, 313
Urethra, B-cell lymphoma, AIDS, first case reported, 57-year-old male, 596
obstruction, automated urodynamics: detrusor pressure/flow rate, computerized objectivity, review, 216
Urethra, primary lymphoma, female, external beam radiation therapy, recurrence-free, 343
stricture, direct vision internal urethrotomy, topical lidocaine anesthesia, safe/cost effective, 548
pediatric/posterior/traumatic, surgical options, 59
Urethral/bladder neck function in pregnancy, hormonal effect (frequency/urgency/incontinence), rabbits, 747
Urethral diverticulum with calculi within, sonographically demonstrated, rare, 735
Urethral valves, optical valvulotomy, hook-blade knife vs wire loop electrode, 443
Urethrotomy, direct vision internal, topical lidocaine anesthesia, cost/safety, 548
Urinary diversion, ileal conduit, patch from augmented bladder, technique, 190
Mainz pouch, canine studies, solution osmolality, nocturnal incontinence, 741
pyeloplasty, hydronephrostomy tube diversion, 55
Urinary frequency, extraordinary urinary frequency syndrome (EUFS), 31 children, 321
Urinary incontinence, acquired/congenital/sphincteric, artificial sphincter (AS800), follow-up recommendations, 431
elderly, multichannel cystometry diagnostic screening, diagnostic accuracy, 536
gender reassignment surgery, periurethral collagen injection, 458
hormonal effects of pregnancy changes in urethral/bladder neck function, 747
laparoscopic seromyotomy, non-neurogenic neurogenic bladder, 8-year-old boy, 175
Urodynamics, detrusor pressure/flow rate, computerized objectivity, urethral obstruction, 216
Urologic procedures' effect on PSA levels, cancer-free patients, cystoscopy/biopsy/TURP, significance, 276
Urologic tumors, tumor suppressor genes, mechanism in progression of cancer, clinical/experimental studies, review, 461

Varess needle puncture, laparoscopy, 574
Varicocele, adolescents, gonadotropin hormone releasing (GnHR) test, testicular dysfunction, 179
testicular, adolescent, infertility, retrospective study 2,989 patients, 541
Varicocelectomy, laparoscopic vs open surgery, infertility, 48-patient review, risks/complications, 544
Vascular malformations, genital hemangioma, 205
Vasoactive multidrug intracavernous therapy, vasculogenic impotence, effectiveness/safety, 554

Yolk sac tumors, alpha fetaprotein (AFP) levels, ? tumor marker, infants vs older patients, 79
